**** ARTICLE MATERIAL ****

An event of significant importance in relation to the recent Pentagon "Disclosure" via release of documentation published in the New York Times, Washington Post and other publications in late December 2017, will be the Wednesday night, March 27, "Military Witnesses Interview" of Servicemen from the 2004 Navy exercises of the Nimitz and Princeton hosted by film maker Robert Kiviat. These "Military Witnesses" eyewitness accounts, fueled the now infamous "tic tac" footage media frenzy. And, even more important, is *what happened to them after these encounters*.

UFO MEGA CON has invited "Project Blue Book" TV show creator, David O'Leary to be interviewed at the Saturday night banquet by Emmy Award winning Las Vegas TV Report, George Knapp. This is Mr. O'Leary's first appearance at a UFO specific conference. David will be asked a myriad of questions,

starting with why he chose to create a TV show based on “Project Blue Book” and the story of Dr. J. Allen Hynek. Sure to be an insightful interview into a significant chapter of classic UFO military history.

Besides presentations by 40+ speakers spanning 7 days, join us for a fun and entertaining evening with “George Noory and Friends”, Friday, March 29. Coast to Coast AM’s George Noory will host a panel whose goal is to stump the audience by “fibbing - convincingly” for the “Who’s Telling the Truth Game.” After, George will join our musical entertainment, Robert Perala and Linda and Malcom Dane, will take us down memory lane where Sinatra, Elvis and others are honored in song.

UFO MEGA CON is focused on the educational and scientific aspects of contact and UFOs, but will address the experiencer phenomenon as well, by offering “group sessions” for experiencers with a certified professional. A new standard of group sessions will be established at this year’s first UFO MEGA CON – *Intimate Experiencer Groups*. Instead of one hypnotherapist leading a group session with 200 or more experiencers - who have had a myriad of different types of contact - we will have 4 Therapists leading 4 groups at the same time; covering a variety of different and specific types of contact, different forms of communication, ways of interaction, and other important issues that arise from being an experiencer (contactee, abductee, etc.). These groups are limited in size as to give individualized attention to participants – resulting in better therapeutic interactions and results, than ever before.

Another entertaining event being offered at UFO MEGA CON is the *Desert Sky Watch with Night Vision Goggles* lead by Melinda Leslie and her wonderful “Sky Watch Ground Crew” of skilled Night Vision Goggle UFO sighting experts. Melinda will conduct tours Saturday night 3/23, as well as two “during conference” Sky Watches, Tuesday 3/26 and Thursday 3/28. For more information about Melinda and her UFO Sighting tours in Sedona, Arizona, please visit: <http://www.UFOSightingTours.com>.
